'THUNDER' LEADS PICKED

Beverly Kaufman, a freshman majoring in journalism, has been chosen to play the lead in "Peacock Season", the Campus Thunder production for 1961. Writer-Director Albert Dickason has announced the production will be presented at the Klein Dec. 2, 3 and 5.

The lead part of Heavenly (Daze) Schermerhorn is that of a cafe entertainer who turns society girl.

Playing the part of society matron Mrs. Christopher Clyde Fosdick in this fourteenth edition of "Thunder" will be Roberta Loeffler. Luke Lucas, her social secretary, will be played by Eddie Frackman.

Christopher Clyde Fosdick II, the play's romantic lead, will be portrayed by John Keramis. Albert Balash plays the part of the Indian Blue Feather, with Doris Carroll as Jawa, a half-breed Indian girl.

The perennial Thunderettes will appear in the original musical, featuring Gordon Cassano, Ray Cordani, Louis Haber, Peter Hertz, Joseph Loconto, Bob Mayer, Paul Rashap, Mitch Rodgers and Bob Verna.

Dancers for the show include Elizabeth Guzzi, Daryl Glauleinger, Carole Pursell and Phyllis Wall.

Girls in the company include Sandra Berg, Roberta D'Aiuto, Clara Dostal, Doris Fink, Cindy Gelbard, Linda Giovannelli, Debbie Hartley, Joy Kroin, Roberta Newman, Dodi Mathias, Sally Ann Saffo, Arlene Susser, Phyllis Tannenbaum and Gail Wer-

men. Men in the company include John Aires, James Blue, Kenneth

Beverly Kaufman

Broad, Steven Cohen, Peter DeMilet, Ronald Moorash, Gerald Gregario, Bruce Jano, David Owen, George Sepe, Bruce Stang MacIntosh, Robert Mahler, Jeff and Gary Zurinskas.

Off-Campus Living Clarified Magill Fund Established

Dr. Sorrell E. Chesin, newly appointed director of Men's Housing, has announced that he is checking the names of students living off-campus and that all students who neglected to obtain the required written release will be required to return to the campus immediately.

Chesin states that some students did not follow the procedure set down by his office. This procedure, he said, asks that a student first apply for a dorm assignment, pay the deposit and then apply for a release to live off the campus.

He stated that the release was granted according to seniority, promptness of application and payment of deposit. Freshmen are required to live on campus, he added.

Chesin says that the office is honoring all releases granted by Allan Marshall, former director of Men's Housing.

In regard to off-campus dwellings, Chesin emphasizes that there are no University approved

houses, but that a list of rooms and apartments for rent near the school is available in the housing office.

Career Day Set For Wednesday

Speakers prominent in industry will highlight Career Day scheduled for Oct. 12. Dr. Alfred R. Wolff, director of Student Personnel, has announced.

Career day will replace freshman advisory meetings for that week, Dr. Wolff said, and added that attendance at one of the meetings is mandatory for freshmen. Upperclassmen may attend if they so desire, he noted. The speakers will talk to students about their chosen careers.

The speakers and the locations of meetings are as follows: Geraldine Bennett, a registered CPA, will speak to accounting students in Dana 207; David Tuller, an administrator in the Stratford school system will talk to education majors in Fones 100; Dr. Edward Gerety will discuss medicine in Dana 111 and Robert Calderone, an advertising agency executive, will talk to marketing majors in Dana 124.

The Hon. Herbert Bundock, former state senator, will speak on law in Dana 121; Walter Olbrys, chief mechanical engineer for the Selma Corporation will talk to future engineers in Tech. 101; Joseph Goloff, manager of Spector's jewelry store, will talk about sales in Dana 209; an Mrs. Fred Priestly, of General Electric, will talk to Secretarial students in Fones 12.

Eleanor Sicilian of Eastern Personnel will talk about psychology and social work in Dana 112 and Lillian Weisner will talk to medical secretarial students in Fones.

The University has received a \$10,000 grant from the widow and family of Philip R. Magill, a former jeweler, watchmaker and president of the Welfare Board of Bridgeport. The funds will be used to establish a memorial scholarship in his name, President James H. Halsey stated.

Magill served as a member of the Welfare Board for 24 years and was its president for 23 years before he passed away in 1955. He operated his own jewelry store at 121 Congress Street for 39 years with the assistance of his wife, combining duties at the store with his civic position.

Mrs. Magill said her late husband's deep and sincere interest in charity and education and desire to be of assistance to the children of Bridgeport prompted selection of a scholarship at the University as a fitting memorial in his honor.

Income from the \$10,000 grant is to be awarded annually to a qualified graduate of a Bridgeport Public High School who is a resident of the city, under terms of the scholarship agreement. It is expected that the amount to be awarded will be at least \$400 per year with half to be awarded for the fall term and the remainder for the spring semester.

Selection of recipients is to be made without regard to race, color or creed on the basis of future promise and financial need. The scholarship is to be awarded to an entering freshman each year. Formal application for the scholarship may be made prior to April 15 of the year the applicant expects to enter the University. Further details may be obtained from Dr. Donald W. Kern, chairman of the Scholarship Committee.

Schiott Dorm Residents 'Adopt' Chinese Boy

Forty-one residents of Schiott Hall have adopted a nine year old Chinese boy from Hong Kong.

Under the direction of Cynthia Gelbard, resident assistant, the girls are giving financial aid to Kwong Hew Sing, through the Christian Children's Fund, an "inter-denominational missionary association."

CCF projects are located in 41 countries and cooperate with 29 different denominations. Kwong will spend a year at a CCF orphanage where he will receive full care and education.

This is the second time that an orphan has been adopted by a group in the University. Last year Sigma Lambda Chi fraternity adopted a 12-year-old Chinese boy with funds raised from a fraternity function.

The adoption plan participated in by the girls is not a legal adoption but a plan whereby they can sponsor a specific child. The girls have the boy's name, address and picture and are planning to correspond with him. The cost to the dorm girls is \$120 per year or \$10 per month for as long as they wish to continue to help.

The great majority of the CCF assisted children are placed in orphanages, schools, but some are assisted in welfare centers or in their own homes, the organization reports.

Kwong Hew Sing, Schiott's adopted "child," is in the second grade. Except for his mother,

Kwong Hew Sing

Kwong's family all managed to escape from Communist China to Hong Kong.

Because of the contribution of the girls, Kwong will receive food, shelter, proper care and a chance to learn.

"You have given him life and hope and the opportunity to prepare himself to become a good citizen of the oncoming generation," J. Calvitt Clarke, member of the Board of Directors of the Christian Children's Fund, said in a recent letter to the dorm group.

Reading Laboratory Assists Potential College Students

A special program for high school graduates who have failed to get into college despite having the potential for college work, is being offered by the Reading Laboratory of the University.

"Too many good brains are going to waste nowadays," believes Dr. Lydia Duggins, director of the laboratory who devotes many hours a week salvaging young minds whose progress has been blocked by difficulties in communicating.

Dr. Duggins noted that parents work as partners with children and teach in improving and repairing reading skills at the center.

Children of good intelligence have learned to overcome reading obstacles, while gifted children have been able to move ahead in their reading at a much faster rate than they would if left to their own devices, reports Dr. Duggins.

A major group at the workshop consists of boys and girls preparing to enter junior high and high school who will not

make the grade unless they can improve their reading and other communication skills.

Inadequacies in reading and studying is often a reason for poor marks in high school or failure in college entrance exams, the Reading Laboratory director believes.

The program offered by the Reading Laboratory will include emphasis on reading, listening, note taking, examinations and other college communication skills.

Dr. Duggins who is a strong believer in full participation by parents in the work of their children, allows the parents to sit in with their youngsters while test results and grades are interpreted and instructions are given.

The Reading Laboratory has been in operation at the University for nine years, with Dr. Duggins as its director for two years. Previously she was on the faculty of Louisiana State University. She earned her doctorate at Teachers College of Columbia University.

Famed Mentalist Appears Sunday

Dr. Henry Gerald, hailed by critics throughout the country as the "most extraordinary mentalist of our day and age," will present his "Mind Over Matter" program to the University on Sunday, Oct. 9. His appearance is sponsored by the Alumni Hall Board of Directors.

Dr. Gerald has appeared at hundreds of universities, women's clubs and conventions, and through his work is scientific in nature, "his personality, sincerity, unusual psychic power, expert showmanship and happy humor insure an exciting experience."

A Scandinavian psychologist he performs feats of telepathy and hypnotism.

Autumn Festival Queen To Be Crowned Tomorrow

The Autumn Festival Queen for 1960 will be crowned tomorrow night at the POC-OSR dance at Trinity Hall.

The six finalists were selected at a tea at Wistaria Hall last Sunday. Judges were Prof. William T. DeSiero, Mrs. Marion Hotchkiss, director of Alumni Hall, Mike Chodoroff, IFC president and Ed DeTour of OSR fraternity.

Finalists and their sponsors are: Patricia Dasko, a sophomore majoring in physical education, sponsored by Theta Epsilon sorority; Judith Bradt, a junior and sociology major, sponsored by Alpha Gamma Phi fraternity and Cooper Hall, third floor; Judith Rabiner, a sophomore majoring in elementary education, Seaside Hall; Eleanor Myers, a freshman liberal arts major, Chaffee Hall, third floor; Carole Hoffman, a freshman majoring in psychology, sponsored by Norwalk Hall and An-

nette Vincenzi, a freshman majoring in nursing, Cooper Hall, second floor.

Tickets are available in Alumni Hall for \$2 a couple.

Dr. Silverstone Conducts Seminar

Dr. David M. Silverstone, associate professor of education, and narrator of the University Audio-Visual Center, recently played host to a seminar group of industrial arts teachers from the Fairfield county school system.

The four hour seminar included a tour of the University's Audio-Visual facilities in the Dana Hall of Science.

Dr. Silverstone demonstrated the use of the latest audio-visual equipment in education. The co-sponsor was John Burkhardt, president of the Stamford High School faculty.

Vox Populi

Newman Dislikes Scribe Editorial

Dear Editor:

Once more, for the record, the Scribe has spoken in ignorance. I am referring to the article in last week's edition in which you used strong language concerning something you had no facts to support.

Specifically, I refer to your criticism of the UB band's noticeable absence at the football rally. If you had taken the time to check your facts, you would have realized that the band and its director were facing overwhelming odds.

Prior to the rally, the band had only two rehearsals. If you were only half intelligent, you would realize that any organization would require more time for preparation for any type of public performance.

I agree if you argue that this was not meant to be a concert of any sort, but only a means of getting loud noise. But because many of our students were observing a religious holiday that weekend, we would have surely made a very meager appearance.

Since the band could not attend as the UB band, you have no right to criticize the organization but rather, the musicians themselves. Time and again, I have patiently observed your neglect of UB organizations. But when you blindly, deliberately "knock" an organization which

has no defense against such a powerful contact with the students as the Scribe, it is more than my conscience can bear.

If this is the kind of bitter hatred and vengeance that we students of UB must tolerate for the rest of the year, then I will withdraw from your list of uninformed readers.

A good newspaper should never take the role of a supreme judge, but rather state the facts simply and precisely. Therefore, you—if you consider yourself as a good paper—must first check your facts and then relate them without your own analysis.

This is a paper for college level and we students should be able to make our own opinions without your verdict handed to us on a silver platter.

Alan F. Newman

Mr. Newman:

One thing is quite obvious. That is the fact that you know very little about journalism. I know my knowledge of music is limited and I refrain from telling you how to play a clarinet.

Editorials are designed to be interpretations of the facts and not the facts alone. The facts in your case were quite obvious. The band wasn't there when scheduled.

In the future I would suggest your organization make note of such things as religious holidays and only agree to appear when it is possible to do so.

If you would care for further

instruction in journalism, I would be happy to underwrite an elementary course for you. — Ed.

Ed Wolff Claims Park Place Garbage

To the Editor:

The Scribe, trying to be very Democratic, has fallen into a deep hole. By using the power of the press, untalented people have mutilated and lowered the Scribe to a "high school gossip sheet."

The trite gossip, (garbage), that was titled, "Along Park Place," Sept. 29, was not only a showing of "juvenile journalism," but written in very poor taste.

It is my opinion that the Scribe should have screened these articles in a private locked office, and then discarded the articles in the circular file. If these samples are an example of the University's new journalists then APP should be discontinued.

Just because some fraternity men have written the same tripe in the past, is no reason why it should be continued in the same manner. The Helicon has practically fallen apart. What are you trying to do to the Scribe?

You may argue and say that this is the only way to be "cricket." Maybe, but what about those people who go around campus asking you to vote for their article? They only want the job so that they can print the names of their friends and sweethearts at will. How about digging yourself out of this hole? I have confidence in you.

Edmund J. Wolff

Prof. Nixon Relates Experiences

by Leonard Barlow

Have you ever had difficulty because your elephants wouldn't work overtime? Or become involved in a traffic jam with bullock carts? Not long ago such things were all in a day's work to Prof. George Nixon, new member of the University's mechanical engineering department.

A native of Vancouver, Canada, Prof. Nixon studied at the University of Toronto. As a freelance consulting engineer, specializing in air-conditioning and refrigeration, he went off to work for several large companies located in Peru.

"You had to learn to live with snakes," says Nixon of Peru, but expressed no other complaints about the country. His job there was to increase the amount of food available to the natives by building cold-storage plants to preserve the seasonal crops. Nixon relates that many of the natives were afraid to eat frozen foods, because such things were a new innovation to them.

The Colombo Plan, a program similar to the Four Point Program, carried on by the British Commonwealth, sent Nixon off to Ceylon for four years. His job there was much the same as in Peru. He relates that the people of Ceylon are just as easy to work with as people in this country but that the extremely hot

climate lowers the amount of time spent on the job.

In the course of his job as consulting engineer for the Ceylon government, Nixon discovered that the natives are very adept with their hands, but rather short on imagination. To illustrate this, he tells of the time a flywheel from one of his machines developed a crack, and needed a replacement. The wheel was sent off to the local shop with orders to duplicate.

When no replacement was forthcoming, Nixon visited the shop, arriving just in time to see the native foreman approach a newly completed flywheel and crack it in the same manner as the original had been cracked.

Not only had the natives duplicated the defect as well as the wheel, but, Nixon learned, they had discarded three other wheels because the crack had not come out right.

Nixon relates that elephants do much of the work that bulldozers normally do. He says that elephants, through some sixth sense, know exactly how long the working day is supposed to be, and refuse to work one minute past closing time.

He tells of the time two elephants were employed in pushing a bulldozer up a steep hill. Ten feet from the top, the working day ended, and the elephants stopped dead. The overseer, seeing that such a small distance

remained, prodded the elephants to keep on. Under the prodding, the animals pushed the machine to the top of the hill, and, despite the frantic shouts of the overseer, deliberately pushed the bulldozer off the cliff.

The accepted mode of transportation in Ceylon, says Nixon, is heavy carts pulled by bullocks. The carts have six foot wheels, with spokes as thick as a man's arm, and weigh over a ton. When they begin to wander all over the road, they constitute a definite traffic hazard.

Nixon relates that when one of the natives wished to drive to town, he started the night before with his cart. Some time during the night, the driver would fall asleep, leaving the bullocks pulling the cart unguided.

When he came upon one of these wandering carts on the road at night, Nixon relates, he felt the safest thing to do was turn the cart around and head it back the other way. Generally this did not awaken the driver, who probably woke the next morning to find himself back home.

Prof. Nixon's previous teaching experience was at the University of Saskatchewan, Vancouver Vocational Institute, the University of Toronto and Queen's University, where he received a fellowship.

MEN'S INTRAMURALS

The men's intramural sports program of tennis, archery and touch football will begin next week.

A tennis tournament is scheduled for Monday and archery contestants will shoot on Monday, Tuesday and Wednesday. All touch football games will be played Tuesday and Wednesday at 3:30 p.m. on Barnum field.

For additional information, check the intramural bulletin board or contact Phil Leibrack, room 5 in the Gym.

Rebecca Merilees Does 'Digest' Cover

Mrs. Rebecca A. Merilees, part-time lecturer in art at the University, and wife of Douglas Merilees, assistant professor of industrial design, is the first woman in 39 years to be selected to design a cover for "Reader's Digest" magazine.

The October issue features her cover of the green, gold and brown design of North American ferns.

Mrs. Merilees is also known for her paintings of flowers and her work has appeared on the covers of "Field and Stream", "Everywoman", "Collier's" and "What's New."

She is a member of the Associated American Artists and has exhibited her work at the American Watercolor Society in New England.

Faculty Heard on Radio Program

The University and radio station WMMM will cooperate in offering a series of three public service broadcasts on topics of current interest over the Westport station beginning Oct. 9, at 2:30 p.m.

The half-hour broadcasts will take the form of panel discussions with three University faculty members as participants for each presentation.

Dr. Justus M. Van der Kroef, associate professor of sociology, will serve as moderator.

Freeman Hammond, of the WMMM staff and Dr. Van der

Kroef have arranged details of the broadcasts. Topics of current interest discussed by qualified experts in a variety of fields will provide the subject matter for the programs.

"Russia's Next Move" is to be the topic of Sunday's program. Participants will include James Fenner, assistant professor of economics, William F. Allen, assistant professor of history and Dr. Van der Kroef.

"The Modern Novel Today" will be discussed Oct. 23, by Dr. Milton Millhauser, associate professor of English, Dr. John A.

Rassias, assistant professor of foreign languages and Dr. Van der Kroef.

"Modern Philosophers of Education" will provide the topic on Nov. 6, for discussion by Dr. William R. McKenzie, professor of education, Raymond J. Mammarella, assistant professor of education and Dr. Van der Kroef. Some attention will also be given to an analysis of Zen.

Class rings are now available at the Student Activities Office in Alumni Hall.

Detective Added To Campus Police

Dr. Alfred R. Wolff, director of Student Personnel, has announced that, due to requests for additional police protection, a second Pinkerton detective has been added to the University's campus police force.

Dr. Wolff stated that the new man will concentrate on patrolling the area around the new men's dorms.

Another Pinkerton man patrols the girl's campus and there are also several campus policemen, headed by Elmer Maher.

FRIDAY! THE GREATEST SIXTY-ONE DERFUL CHEVROLET

Here's the car that reads you loud and clear—the new-size, you-size '61 Chevrolet. We started out by trimming the outside size a bit (to give you extra inches of clearance for parking and maneuvering) but inside we left you a full measure of Chevy comfort. Door openings are as much as 6 inches wider to give feet, knees, and elbows the undisputed right of way. And the new easy-chair seats are as much as 14% higher—just right for seeing, just right for sitting.

Once you've settled inside you'll have high and wide praises for Chevrolet's spacious new dimensions (in the Sport Coupes, for example, head room has been upped as much as 2 inches, and there's more leg room, too—front and rear). Chevy's new trunk is something else that will please you hugely—what with its deep-well shape and bumper-level loading it holds things you've never been able to get in a trunk before.

Yet, generously endowed as this car is with spaciousness and clean-etched elegance, it holds steadfastly to all the thrifty, dependable virtues Chevrolet buyers have come to take for granted. Your dealer's the man to see for all the details.

There's never been a trunk like it before! The floor's recessed more than half a foot and the loading height is as much as 10½ inches lower.

INTRODUCING THE '61 CHEVY BISCAYNE 6

the lowest priced full-sized Chevy with big-car comfort at small-car prices!

Chevy's new '61 Biscaynes—6 or V8—give you a full measure of Chevrolet quality, roominess and proved performance—yet they're priced down with many cars that give you a lot less! Now you can have economy and comfort, too!

IMPALA 4-DOOR SPORT SEDAN—one of five Impalas that bring you a new measure of elegance from the most elegant Chevis of all.

NOMAD 9-PASSENGER STATION WAGON. You have a choice of six Chevrolet wagons, each with a cave-sized cargo opening nearly 5 feet across.

BEL AIR 2-DOOR SEDAN, like all '61 Chevrolets, brings you Body by Fisher newness—more front seat leg room.

Biscayne 4-Door Sedan

First Foreign Film Shown Friday

The University's first annual Foreign Film Festival will get underway on Friday Oct. 7 with the showing of "Battleship Potemkin" at Trustees Hall in the Dana Hall of Science, at 8 p.m. announced Dr. Justus M. Van der Kroef, festival chairman.

The film, considered to be one of the most important films in the history of silent cinema, is based on an incident which occurred in the Potemkin during the 1905 uprising in Russia.

A short subject, "Conditioned Reflexes" which reviews the most famous experiments of the Russian physiologist and Nobel Prize winner Ivan Pavlov will

also be shown.

Subsequent films will be offered on Oct. 28, Nov. 25 and Dec. 9.

CANCELLED LECTURE

The date of the Student Council convocation originally scheduled for Nov. 16, at 1:00 p.m., in the Dana lecture hall, has been changed to Nov. 30 at 3:00 p.m. The convocation originally scheduled for Nov. 30 has been cancelled and will be given at a future date.

Poetry Contest Announced

The National Poetry Association has announced its annual competition for college students.

Any student attending the University is eligible to submit his verse. There is no limitation as to form or theme, but shorter works are preferred. The closing date for the submission of manuscripts is Nov. 5.

Each poem must be typed or printed on a separate sheet, and must bear the writer's name, home address and the name of the University.

Teachers and librarians are invited to submit poetry for possible inclusion in the Annual

National Teachers Anthology.

All manuscripts should be sent to the National Poetry Association, 3210 Selby Avenue, Los Angeles 34, Calif.

MEN'S SENATE

The Office of Men's Housing has announced that off-campus students may elect two representatives to the Men's Senate this semester. A minimum of 50 voters are needed to make an election valid. Interested students please contact Dr. Serell E. Chesin at the new dorms.

SHOW ON WORTH!

NEW '61 CHEVY CORVAIR

More space . . .
more spunk
and wagons, too!

The newest car in America: the CORVAIR 700 LAKEWOOD 4-DOOR STATION WAGON.

CORVAIR 700 CLUB COUPE. Like all coupes and sedans, it has a longer range fuel tank.

CORVAIR 700 4-DOOR SEDAN. Provisions for heating ducts are built right into its Body by Fisher.

Here's the new Chevy Corvair for '61 with a complete line of complete thrift cars.

To start with, every Corvair has a budget-pleasing price tag. And Corvair goes on from there to save you even more. With extra miles per gallon . . . quicker-than-ever cold-start warmup so you start saving sooner . . . a new extra-cost optional heater that warms everyone evenly. Riding along with this extra economy: more room inside for you, more room up front for your luggage (sedans and coupes have almost 12% more usable trunk space).

And our new wagons? You'll love them—think they're the greatest thing for families since houses. The Lakewood Station Wagon does a man-sized job with cargo, up to 68 cubic feet of it. The Greenbrier Sports Wagon you're going to have to see—it gives you up to 175.5 cubic feet of space for you and your things.

Corvair's whole thrifty lineup gets its pep from a spunkier 145-cu.-in. air-cooled rear engine. Same rear-engine traction, same smooth 4-wheel independent-suspension ride. See the polished and refined 1961 Corvair first chance you get at your Chevrolet dealer's.

Spare tire is in the rear in coupes and sedans—leaving more luggage space up front.

Even middle-seat passengers sit pretty, thanks to Corvair's practically flat floor.

Now in production—the GREENBRIER SPORTS WAGON with up to twice as much room as ordinary wagons (third seat optional at extra cost).

See the new Chevrolet cars, Chevy Corvairs and the new Corvette at your local authorized Chevrolet dealer's

LITTLE MAN ON CAMPUS

Along Park Place

After asking students to vote on the Along Park Place columns submitted last week the Scribe Editorial Board would like to announce that final decision on the writer will be delayed until next week.

Since there has been obvious indications of the ballot boxes being stuffed, the Scribe reserves the right to make the final decision regarding the new writer for the column.

DiSpirito Seeks Student Support

Head football coach, Bob DiSpirito is making a personal appeal to the student body to support the sale of this week's football programs in an effort to get sufficient funds to print a special memorial football program for the Homecoming game on Nov. 5 against Central Connecticut.

Sports publicity director Don DiSpirito would like to print a 15-page memorial program to the graduating football players but lacks sufficient backing to accomplish this.

The proposed program would have pictures and stories of each senior football player along with team and action shots. The pro-

gram currently being used is donated to the University by the Pepsi Cola Bottling Co. of Bridgeport, the only cost being the printing of the line-up and the pre-game warm up story.

All students are asked to give their full support.

New IFC Committees Organized

Mike Chodoroff, president of the IFC, recently announced the committees formed for the 1960-61 season.

The Pledging Affairs Committee is chaired by Gene Conroy, treasurer of IFC and representative from Omega Sigma Rho. Committee members are: Stan Pollack, Sigma Omicron Sigma; Cindy Gelbard, Phi Delta Rho; Marilyn Lipsius, Beta Gamma; Ted Keller, Omega Sigma Rho; and John Caupole, Theta Sigma.

The Social Activities Committee is headed by Lynn Chamberlain of Theta Epsilon and Jim DeFeo of Sigma Phi Alpha. Members are: Larry Brezner, Pi Omega Chi; Natalie Glowatski, Chi Zeta Rho; and Tom Marcello, Alpha Gamma Phi.

Members of the Rules and Regulations Committee are: Ian J. Black, Iota Delta Phi and Frank Lester, Kappa Beta Rho. The committee is chaired by Harvey Herer of Sigma Lambda Chi.

The Finance Committee also is headed by Gene Conroy and members are: Stephanie Tomasko, Chi Sigma Delta; Vernon Brown, alternate from Theta Sigma; and Sharon L. Pavlow, alternate from Phi Delta Rho.

Chodoroff also announced that Larry Brezner is the new IFC representative to the Student Council.

Skating Offered As Gym Course

Dr. David Field, director of Arnold College, has announced that ice skating will be offered as a regular gym course beginning this semester.

Dr. Field said that the course will be given on Monday and Friday, from 8 to 9:30 a.m. at the Green Farms Rink in Westport. He added that in each class there will be enough students with cars to insure transportation for everybody.

The first part of the course Dr. Fields said, will deal mainly with fundamentals of ice skating, with the second half given over to such things as elementary figure skating. He noted that it is not necessary for students to own skates, because renting facilities are available at the rink.

In the future, Dr. Field said he hopes the course will lead to such things as campus intramural competition in ice skating.

PROFESSOR JACOBS

Prof. Charles Jacobs, coordinator of the Universal English Program, has won third prize in the American Poetry League's annual contest with his poem, "To Giorsail Domhnallach."

GRIDDERS, BOOTERS TRIUMPH

Knights Smash Northeastern, 19-9 Trenton Squad Pounded As UB Booters Win, 5-1

by Marty Riger
The University of Bridgeport defeated Northeastern University 19-9 Saturday night after spotting the Huskies a touchdown on a blocked kick.

On the next series of plays after a recovered fumble, Walt Czeka, raced 85 yards on a spectacular exhibition of open field running for the first UB score. Czeka was unleashed by a block by end John Moran who took out the only defender between Czeka and paydirt. Tom Shea failed on the try for the conversion.

The Knights scored again in the first half. Defensive tackle Jim Smith set up the score when he recovered a fumble on Northeastern's 45 yard line. Sophomore halfback Norm Pederson raced 24 yards to the Huskie 21 and Pete DeGregorio hit end Bob

Lesko with a pass to the 12. Then the other half of Coach "D's" promising sophomore halfbacks, Mike Oshan raced the remaining distance for the second tally for the Purple Knights.

The final Bridgeport touchdown was again spearheaded by the fine running of Oshan. He carried for gains of 23, 10 and 5 yards to bring the "oblate spheroid" down to the Northeastern 4 yard line and then the other half of the act, Pederson, carried over for the TD. The PAT was good as another sophomore, Ron Pedone, kicked the pigskin through the uprights.

Northeastern picked up a safety after the Knight defense, powered by Captain Angelo Palumbo, had stopped a Huskie march on the Bridgeport 4.

Northeastern's lone touchdown

was scored in the first quarter, when lineman Phil Johnston recovered a blocked punt and raced 15 yards to score.

UB picked up 14 first downs compared to five for the Huskies. The Knights gained 235 yards on the ground to 73 by the opposition. The combined efforts of Larry Pasquale, Pete DeGregorio and John Hutchinson gathered 39 yards in the air compared to Northeastern's 68 yards. The alert Knight secondary pass defense picked off four Huskie passes while Northeastern only intercepted one Bridgeport pass. UB led in penalties with 65 yards compared to 45 yards for Northeastern.

Angelo Palumbo, John Kopka and Jim Smith again sparked the defensive unit. It was outstanding in the first two games, holding the opposition to an average of 81 yards on the ground and 66 yards in the air.

Saturday night the Knights take on a stiff Hofstra eleven. Bridgeport is out to avenge a humiliating 47-0 defeat handed them last year at Hofstra. Hofstra has 14 returning lettermen and are packed at every position except center.

In their first two games of the year, the Flying Dutchmen have defeated Scranton 28-14 and Upsala 20-16. Hofstra was ranked third in the nation in small colleges last year.

Coach "D" was very well pleased with the play of sophomore Dave Fleischer, who filled in for regular center Vito Rallo, whose father passed away this past week. Harry Schilb also did a bang-up job in substituting for injured sophomore tackle Jeff Whan.

PEP RALLY

The Student Council will have a pep rally for the football team at 7 p. m. tomorrow evening in front of Alumni Hall. The team and the band will be at the rally. All students are asked to attend.

The Purple Knights showed real championship form last Saturday when they downed Trenton State College 5-1 on Trenton's field. It was UB's opener and the Trenton State Lion's first defeat.

The game got underway at 1 p. m. and Bridgeport drew first blood on a score by John Coogan. John Majesko, last year's high scorer, was credited with the assist. Trenton came back at 1:22 of the second period to tie it up on a score by Thompson. A few minutes later the Knights again went into the lead, this time to stay, on a penalty shot by Co-Captain Jim Kuhlman.

All-American Hans Zucker made in three for UB on a pass from Coogan. The last goal of the half was pushed across at 16:10 of the second quarter on a nice fake shot by Bob Dikranian. Al Churilla was responsible for the assist.

The final goal of the game

came at the midpoint of the third period on a shot by Majesko. Co-Captain Zucker was in there with the assist. The next 32 minutes were scoreless, but they showed the same speed and spirit that dominated the first part of the game.

Teamwork prevailed, and on the whole, the Knights looked good. Majesko showed fine footwork and speed throughout the game and his passes were there at the right time. Coogan started out in high gear in the first few seconds of play and never slowed down.

The defense seemed determined to keep the ball on the other side of the mid-field stripe and the lopsided score shows their success in doing just that.

The next game will be played at Seaside Park on Tuesday, Oct. 11. The Knights will meet UConn at 2 p. m. It will be the Knights' third game of the season and it should be a good one.

Hans Zucker Gets Picture On NCAA Magazine Cover

by Jim Hill

Hans Zucker, UB's All-American soccer player's picture appears on the cover of this year's NCAA Soccer Guide.

Zucker was born in Hanover, Germany in 1938. He came to this country in 1953 and settled in the Bronx with his parents. Zucker attended Commerce High School in Manhattan, where he was a member of the All-City soccer team for three years. During the last two of these years, 1955-56, his team won the city championship.

Zucker entered UB as a freshman in 1957 and was high scorer on the frosh soccer team. This team, was incidentally, the first in Bridgeport's history to end a season undefeated.

Since then, Zucker, has compiled a record for himself worthy of envy in any sport. He was an All-New England pick his sopho-

more and junior years, as well as being elected to the All-American team last year. He was credited with the most assists for the Knights' 1959 season. He plans to play on the Bridgeport City team when it goes to Germany next summer.

You would think that one so skilled in soccer as this man is would have to concentrate on the game all the time to retain this skill—not Zucker. His second sport is field hockey, which he began playing in Germany at the age of eight. In this sport he equals his soccer record as he has been on several international teams as well as playing on the U. S. Olympic team.

Zucker was married in December of 1958 to a German girl from New York. He and his wife, Gerda, now live in Bridgeport and plan to visit their relatives in Germany next summer when he goes abroad to play soccer.

As far as this outstanding sportsman is concerned, there is a great future in the game of soccer in this country and he plans to keep playing the game after he graduates in the spring. He says that he will probably change over to field hockey when he gets "ripe and old."

GRADUATION

The largest graduating class in the University's history attended Commencement exercises, Sunday, June 5, 1960.

Five hundred and forty-five students received degrees in the traditional afternoon ceremony held at the Gym. More than 3,000 parents, faculty members and friends were in attendance.

Each college presented its diplomas individually on different locations on campus due to the large number of the class.
